

AHMCC Meadows GSR/HC January 10th 2016 - 54 km

While all transponders were checked and found to be correct at the start a number were not recognized when crossing the finishing line.

If the following riders have their own time records I will be happy to correct the results.

Cliff Grant (806), Suzie Gray (813), Tony Wilson (831) and David Pau (812 first lap only)

Not sure what caused this problem - faulty loop, power line, heat etc but we are looking into our crystal balls
